ABOUT US

CX3 Solutions has been active since 2010 in the field of INDUSTRIAL MAINTENANCE and INDUSTRIAL RELOCATIONS, specifically for industrial equipment and production lines of any size and complexity. With over 15 years of experience, we have evolved from a regional activity in Pitești/Argeș to a national and international level, becoming a trusted partner for complex projects in the industry. Our mission is to provide complete services from the consulting stage to the completion of contracted projects, ensuring the operational continuity of our partners.

LOCATIONS AND WORK POINTS

- ▶ Main office Marăcineni, Argeş – a 1250 sqm hall, of which 150 sqm are office spaces and annexes (toilets, dining area, changing rooms).
- ▶ Workpoint Slatina: 250 sqm hall and 720 sqm yard.
- ▶ Workpoint Suseni: Storage and parking spaces of 1000 sqm with the possibility of expansion up to 80000 sqm.
- ▶ Intra-urban land Piscani (117362) in the industrial area with access to DN 73, covering over 20,000 sqm, intended for future production and logistics halls.

OUR SERVICES

INDUSTRIAL RELOCATION

- We provide integrated services for moving machinery and industrial equipment, production lines, starting from the consultancy stage, planning, disassembly and preparation for transport, transport, reinstallation, commissioning, and testing of equipment according to the requirements of our partners.
- Moving heavy machinery, production lines, CNC machines, hydraulic presses, lathes, and other special equipment.
- Final positioning and precise alignment of machine/equipment axes to ensure their optimal operation.

MACHINERY AND INDUSTRIAL EQUIPMENT MAINTENANCE

- Preventive maintenance is intended to identify and prevent wear and any hidden defects that occur during the operation of industrial machinery and equipment. The advantages of preventive maintenance are: operation within parameters, reduction of technological losses, and increased lifespan of industrial machinery and equipment.
- We provide corrective or emergency maintenance for: industrial machinery and equipment, production lines, CNC lathes and milling centers, conventional lathes and mills, hydraulic and mechanical presses, conveyors and transport belts, etc.
- We ensure quick interventions to reduce downtime and extend the lifespan of the machinery.

TOOLS & EQUIPMENT

To meet the most demanding market requirements, both in terms of occupational safety standards and in terms of reducing carbon emissions, we have a complete range of specific machinery and equipment:

- Electric forklifts with capacities between 2.5 and 10 tons.
- Tandem roller systems for handling loads between 12 and 80 tons.
- Jacks and hydraulic systems with lifting capacities between 5 and 200 tons.
- 100% electric indoor cranes of the PICK&CARRY ORMIG type available in 40 and 100-ton versions, equipped with state-of-the-art technology that emits no fumes, does not pollute acoustically, and does not require large maneuvering spaces, designed for use in closed production areas.
- Trailers and truck-trailer assemblies: Transport capacities between 40 and 80 tons.
- Electric aerial work platforms.

This equipment, combined with the experience and professionalism of our team, ensures flexibility and precision in handling tasks, even in tight spaces.

OUR TEAM

The CX3 Solutions Machines team consists of experienced professionals in the industrial field, with between 1 and 25 years of experience:

- Carmen Rădulescu – Administrator
- Cătălin Rădulescu – Technical Director and Supplier Contracting
- Gabriela Dobrița – Transport Coordinator
- Technicians specialized in automation, mechanics, electricity, and locksmithing.
- Authorized operators for cranes, forklifts, and aerial work platforms.
- Experienced collaborators who complement our team to ensure quick and efficient interventions.

CERTIFICATIONS

We hold the ISO certificate, which reflects our commitment to quality and international standards, allowing us to provide customers with high-quality solutions and to ensure their trust in our products and services.

WHY CHOOSE CX3 SOLUTIONS MACHINES?

Experience and professionalism, with over 15 years of activity in the field, with successful projects at both national and international levels.

Cutting-edge technology, modern facilities, and professional equipment that ensure the safe handling of heavy machinery.

Integrated services from consultancy, planning, disassembly, to transportation, installation, and commissioning, including post-relocation maintenance.

Quality and safety: ISO 9001, ISO 14001, ISO 45001, ISO 27001 certification, as well as the insurance policy that guarantees quality and responsibility in all projects.

Adaptability and Flexibility: we guarantee customized solutions for each client and industrial challenges.

WE DO NOT NEGOTIATE QUALITY.

REFERENCE PROJECTS COMPLETED

- Relocation in 2022 of METABET CF SA
- Relocation in 2020 of GMB ROMANIA AUTO INDUSTRY
- Relocation in 2017 of a 5-axis milling center with a working table of 30 x 3.5 m for SEGULA INTEGRATION ROMANIA moved from France to Romania
- Relocation in 2024 of the MKS INSTRUMENTS factory, part of the OPHIR group
- Relocation in 2014-2015 of the heavy processing section AS ARRIGHINI Italy
- Relocation in 2024 of the ROMBAT SA factory from Cernica
- Installation and commissioning in 2020 for NIDEC MOTOR CORPORATION ROMANIA SA; rotor production line, stator production line, electric motor impregnation line
- Installation and commissioning in 2019 for NIDEC MOTOR CORPORATION ROMANIA SA of the shaft processing section
- Installation in 2024, alongside the CAMEL team, of a buffer for the HORSE ROMANIA cylinder head machining line
- Installation in 2024 of a rolling bench for AUTOMOBILE DACIA SA
- Installation in 2023 of a production and printing line for eco-friendly bags, for PROMATERIS SA
